Funding Year 2004 07/01/2004- 06/30/2005

Information pertaining to this Letter of Appeal can be addressed directly to:

Mr. Syed ShahMailing Address: **Structured Cabling Solutions**2300 West 80th Street, Suite #3

This "Request For Waiver" of FCC Rule on Approved FCC Form 471 Work Completion Deadline, specifically addresses funding commitment denial as noted by the SLD response, "SLD Invoice Number: 816629; Line Item Detail Number: 3001377; Amount Requested: \$5242.27; Service Receipt Not Confirmed by Applicant; 321." This request is respectfully brought to your attention based on the following documented issues:

1. Original Funding Commitment Decision Letter was received by the Applicant on 06/07/2005(Attachment#1) – a year late. Multiple funding delays were in fact the norm for all M-DCPS' Funding Commitments throughout the 2003, 2004, and 2005 Funding Years, thus creating havoc and forcing multiple work re-adjustments to M-DCPS' work schedule for years to follow – not to mention required filing of multiple FCC Forms 500 to update before work could be continued, just to name some of the many spill-over effects that I am aware of...
2. To compound these problems, as noted in multiple publications, "The 2005 Hurricane Season was the most active Atlantic hurricane season in recorded history, repeatedly shattering previous records. The impact of the season was widespread and ruinous with at least 2,280 deaths and record damages of over \$128 billion USD. Of the storms that made landfall, five of the season's seven major hurricanes—Dennis, Emily, Katrina, Rita, and Wilma—were responsible for most of the destruction. Florida and Louisiana were each struck twice by major hurricanes." As officially reported at, [http://en.wikipedia.org/wiki/2005 Atlantic hurricane season](http://en.wikipedia.org/wiki/2005_Atlantic_hurricane_season) (See Attachment #2).
3. While the 2006 Hurricane Season, thankfully, was nowhere near as active, many tropical waves hit the South Florida area and one Hurricane, ERNESTO, actually touched Miami-Dade County, but then came in as a Tropical Storm. See, <http://www.cnn.com/SPECIALS/2006/hurricanes/interactive/fullpage.flash.hurricanes> (See Attachment #3).
4. It is also my understanding that M-DCPS Hurricane Policy requires Plans of Action that include school closures, even when a storm doesn't have a direct hit to the County, but becomes a serious threat to the area. Clearly, several storms, beyond the obvious ones, may have caused the District undue weather hardship, further affecting operations.
5. These unpredictable events obviously caused further massive disruption in the working process of applications and, while work was being completed by the vendors to meet the FCC/SLD's Deadlines, M-DCPS also adheres to its own policy requiring verification of work complete deemed completed. As a result, this particular job was recorded as completed "out of time".

Phone: 305.364.4545 • Fax: 786.924.9416

Structured Cabling Solutions, Inc.

6. Refund requested amount was forwarded to USAC/SLD by Structured Cabling Solutions under Invoice #5397 dated 12/04/06 (See Attachment #4).
7. Applicant did indeed confirm receipt of goods/services on 05/03/2007 response to a Service Certification Request (See Attachment #5). Please note that the only information provided by the SLD in denying payment indicated that, "Service Receipt Not Confirmed By Applicant." The fact that the job was deemed completed out of window actually did not surface at all, causing further delays in payment, forcing my company into multiple documentation requests, including multiple re-invoicing – causing a near-bankruptcy – while never fully understanding why our due payment from the SLD was truly denied (See Attachment #6).
8. An Invoice Deadline Extension Request was then sent by the applicant on 03/19/2007(Attachment#7).
9. An Administration's Decision on Invoice Deadline Extension Request was approved by the SLD under Invoice # 720614 on 06/26/2007 (See Attachment #8). Why then would such a request to extend the invoicing process be granted if the job would later be considered not billable...? This only created a false sense of imminent payment to SCS, my company, and again, only served to further delay the funding process – and once again created additional paperwork requirements on our part, leading to nothing.
10. All Applicant required FCC Forms were submitted according to required program rules (See Attachment #9).

Thus, I respectfully request that this **Request for Waiver** be granted and will successfully permit the SLD to reverse its funding decision and allow **Structured Cabling Solutions** to finally receive its due funds – after multiple unsuccessful attempts – for work duly completed at Miami-Dade County Public Schools as part of the E-Rate program. As well, should a favorable decision require additional paperwork or re-invoicing on our part, please provide detailed explanation of those requirements.

Sincerely,

Mr. Syed Shah, President

NOTICE ON RULES AND FUNDS AVAILABILITY

Applicants' receipt of funding commitments is contingent on their compliance with all statutory, regulatory, and procedural requirements of the Schools and Libraries Universal Service Support Mechanism. Applicants who have received funding commitments continue to be subject to audits and other reviews that USAC and/or the FCC may undertake periodically to assure that funds that have been committed are being used in accordance with all such requirements. The SLD may be required to reduce or cancel funding commitments that were not issued in accordance with such requirements, whether due to action or inaction, including but not limited to that by the SLD, the applicant, or the service provider. The SLD, and other appropriate authorities (including but not limited to USAC and the FCC), may pursue enforcement actions and other means of recourse to collect erroneously disbursed funds. The timing of payment of invoices may also be affected by the availability of funds based on the amount of funds collected from contributing telecommunications companies.

A GUIDE TO THE FUNDING COMMITMENT REPORT

A report for each E-rate funding request from your application is attached to this letter. We are providing the following definitions for the items in that report.

FORM 471 APPLICATION NUMBER: The unique identifier assigned to a Form 471 application by the SLD.

FUNDING REQUEST NUMBER (FRN): A Funding Request Number is assigned by the SLD to each Block 5 of your Form 471 once an application has been processed. This number is used to report to applicants and service providers the status of individual funding requests submitted on a Form 471.

FUNDING STATUS: Each FRN will have one of the following definitions:

1. An FRN that is "Funded" is approved at the level that the SLD determined is appropriate for this FRN. The funding level will generally be the level requested unless the SLD determines during the application review process that some adjustment is appropriate.
2. An FRN that is "Not Funded" is one for which no funds were committed. The reason for the decision will be briefly explained in the "Funding Commitment Decision Explanation." An FRN may be "Not Funded" because the request does not comply with program rules, or because the total amount of funding available for this Funding Year was insufficient to fund all requests.
3. An FRN that is "As Yet Unfunded" reflects a temporary status that is assigned to an FRN when the SLD is uncertain at the time the letter is generated whether there will be sufficient funds to make commitments for requests for Internal Connections at a particular discount level. For example, if your application included requests for discounts on both Telecommunications Services and Internal Connections, you might receive a letter with funding commitments for your Telecommunications Services funding requests and a message that your Internal Connect requests are "As Yet Unfunded." You would receive one or more subsequent letters regarding the funding decision on your Internal Connections requests.

SERVICES ORDERED: The type of service ordered from the service provider, as shown on your Form 471.

SPIN (Service Provider Identification Number): A unique number assigned by the Universal Service Administrative Company to service providers seeking payment from the Universal Service Fund for participating in the universal service support mechanisms. A SPIN is also used to verify delivery of services and to arrange for payment.

SERVICE PROVIDER NAME: The legal name of the service provider.

CONTRACT NUMBER: The number of the contract between the eligible party and the service provider. This will be present only if a contract number was provided on your Form 471.

BILLING ACCOUNT NUMBER: The account number that your service provider has established with you for billing purposes. This will be present only if a Billing Account Number was provided on your Form 471.

SERVICE START DATE: The date services were reported to start for this FRN on your Form 471.

CONTRACT EXPIRATION DATE: The date the contract expires. This will be present only if a contract expiration date was provided on your Form 471.

SITE IDENTIFIER: The Entity Number listed in Form 471, Block 5, Item 22a. This will be present only for "site specific" FRNs.

ANNUAL PRE-DISCOUNT AMOUNT FOR ELIGIBLE RECURRING CHARGES: Eligible monthly pre-discount amount approved for recurring charges multiplied by number of months of recurring service approved for the funding year.

ANNUAL PRE-DISCOUNT AMOUNT FOR ELIGIBLE NON-RECURRING CHARGES: Annual eligible non-recurring charges approved for the funding year.

PRE-DISCOUNT AMOUNT: Amount in Form 471, Block 5, Item 23I, as determined through the application review process.

DISCOUNT PERCENTAGE APPROVED BY THE SLD: The discount rate that the SLD has approved for this service.

FUNDING COMMITMENT DECISION: This represents the total amount of funding that the SLD has reserved to reimburse your service provider for the approved discounts for this service for this funding year. It is important that you and your service provider both recognize that the SLD should be invoiced and the SLD may direct disbursement of discounts only for eligible, approved services actually rendered.

FUNDING COMMITMENT DECISION EXPLANATION: This entry provides an explanation of the amount in the "Funding Commitment Decision."

2005 Atlantic hurricane season

2005

From Wikipedia, the free encyclopedia

The **2005 Atlantic hurricane season** was the most active Atlantic hurricane season in recorded history, repeatedly shattering previous records. The impact of the season was widespread and ruinous with at least 2,280 deaths and record damages of over \$128 billion USD. Of the storms that made landfall, five of the season's seven major hurricanes—Dennis, Emily, Katrina, Rita, and Wilma—were responsible for most of the destruction. The Mexican states of Quintana Roo and Yucatán and the U.S. states of Florida and Louisiana were each struck twice by major hurricanes; Cuba, the Bahamas, Haiti, Mississippi, Texas, and Tamaulipas were each struck once and in each case brushed by at least one more. The most catastrophic effects of the season were felt on the United States' Gulf Coast, where a 30-foot (10 m) storm surge from Hurricane Katrina caused devastating flooding that inundated New Orleans, Louisiana and destroyed most structures on the Mississippi coastline, and in Guatemala, where Hurricane Stan combined with an extratropical system to cause deadly mudslides.

The season officially began on June 1, 2005, and lasted until November 30, although it effectively persisted into January 2006 due to continued storm activity. A record twenty-eight tropical and subtropical storms formed, of which a record fifteen became hurricanes. Of these, seven strengthened into major hurricanes, a record-tying five became Category 4 hurricanes and a record four reached Category 5 strength, the highest categorization for hurricanes on the Saffir-Simpson Hurricane Scale. Among these Category 5 storms were Hurricanes Katrina and Wilma, the former the costliest and the latter the most intense Atlantic hurricane on record.

Seasonal forecasts

Forecasts of hurricane activity are issued before each hurricane season by noted hurricane expert Dr. William M. Gray and his associates at Colorado State University (CSU), and separately by forecasters with the U.S. Government's National Oceanic and Atmospheric Administration (NOAA). Prior to and during the 2005 season, Dr. Gray issued four forecasts, each time increasing the predicted level of activity. The NOAA issued two forecasts, one shortly before
